FUNCTION *fit*™

Fit for you and the job.

Your job can stretch you in every direction, and now the new Function Fit™ stretches with you.

Horace Small has developed a revolutionary pant for our female customers. It feels great to introduce this versatile new fit, designed exclusively for our female customers—by women, for women. Tested and approved by actual female officers, our new fit delivers the style and comfort you've been waiting for. We've shortened the rise for an updated look. Contoured the waistband to complement the female curve. We even added more room in the seat and hip for easy movement and comfort. Our complete stretch Comfort Cool-Flex® waistband lets you customize the fit to fall at the natural waist or closer to the hipline. The new Function Fit™ stays in place. Even when you don't.

ORIGINAL FIT

A high rise with no contouring in the waistband was less polished and more restricting for sudden movement

FUNCTION FIT™

A customizable waistband lets you choose your most comfortable fit, while the contoured shape is uniquely designed to complement the female figure

LEADING BRAND

A fixed, oversized waistband gapes at the back, while a sloppy cut pulls at the pockets and thigh for poor fit
