Re: Horace Small Pro-Ops Vest Cover

To Whom It May Concern,

GH Armor Systems provides a 5-Year Limited Warranty on soft armor panels against defects in material and workmanship. This warranty is extended to the original owner and will be considered void if the product is altered by anyone other than GH Armor Systems or subjected to abuse, misuse or improper care.

This letter is to confirm the Horace Small Pro-Ops Vest Cover manufactured by VF Imagewear is approved for use with all NIJ certified concealable soft armor panels offered by GH Armor Systems with the condition that the presence of the Horace Small Pro-Ops Vest Cover does not interfere with the proper fit, placement or orientation of the soft armor panels on the wearer's body. GH Armor Systems soft armor panels should be properly inserted and remain in the GH Armor Systems concealable carrier prior to and after integration within the Horace Small Pro-Ops Vest Cover. The primary responsibility of GH Armor Systems is to provide armor products that protect the wearer and great effort is put forth to deliver custom-sized solutions individually fit for each individual. Soft armor panels offer protection only to areas of the body covered by soft armor panels; areas of the body that are covered by a carrier or cover but not backed by soft armor panels are not afforded protection. GH Armor Systems is not responsible for the sizing or labeling of Horace Small Pro-Ops Vest Covers or the proper integration of the soft armor panels or concealable carrier within the cover and reiterates that no third-party cover should interfere with the proper fit, placement or orientation of the soft armor panels on the wearer's body.
